[Change the password](#)
Changes Saved Successfully.
OK

1.Email Validation is not proper will doing in Edite

2.Update will not doing correct

User Group: Super Admin
Mobile Number: 111111
Old Password: ghfghgfh
New Password: 55555
[Change the password](#)
Submit
Successfully changed password!
OK

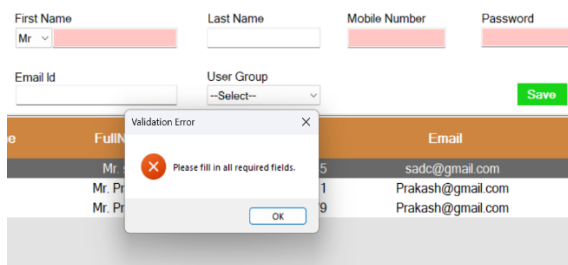

3. I am doing old password to changes while doing correct but I am insert the old password doing wrong that time also showing the Successfully Messagebox is showing

4. before doing edit first will not enable check it

5. password will be maxLength will be 15 for

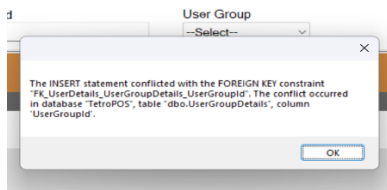

- *Password - TextBox
- *Old Password - TextBox
- *New Password - TextBox
- *Conform Password - TextBox

Validation Error
Please fill in all required fields.
OK

1. We don't want to show the message box for required fields
2. Click the save button the mandatory fields show the pink color then we filled then it will showing the pink color .. we have to change the event in **TextChanged**
3. The password have the MAXLength will having the 20 but .. we want the textbox maxlength will want to change in 15 ... because the password will changed in my profile in have to change
4. To be validation in Email Validation .

5. We want do in Database to do in change in nullable Or we have do mandatory while click save button

Client :

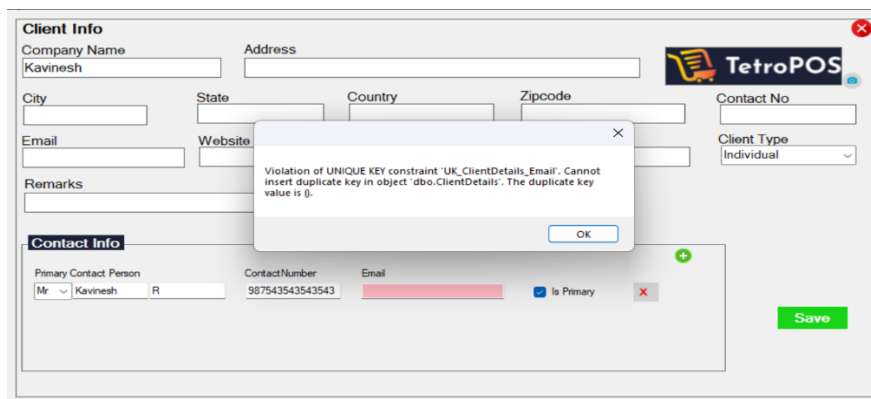

1. We don't want to show the Main page in above Client Info
2. while open the main page don't to show Edit Button ..

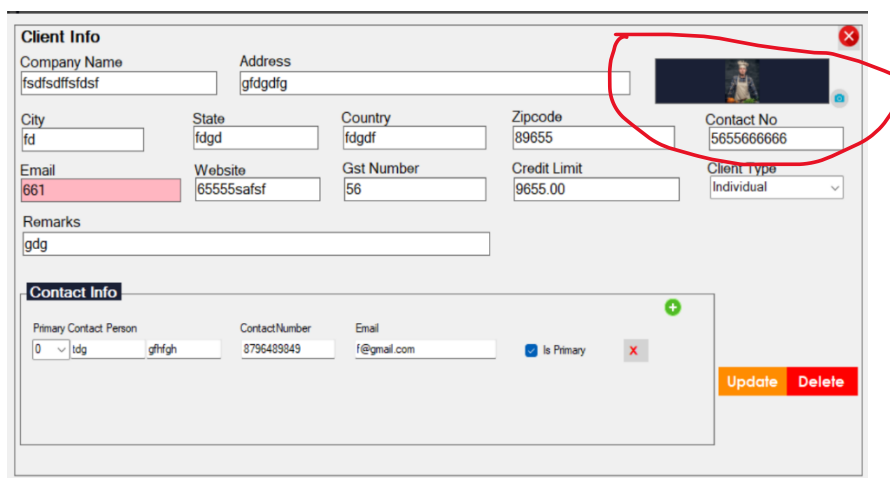

Pop:

(From all pop the heading will be in Pop heading will center)

Insert

1. in Email Having some issue and refer from Database
2. above issue from GST also

3. while insert the data on at time logo will change ..if I the datagrid all the record will changing the record insert image will replace.

- The Zipcode the backspace is not working...

Update

(Same from INSERT)

- in Email Having some issue and refer from Database
- above issue from GST also

Vendor :

(From all pop the heading will be in Pop heading will center)

- Give the Mandatory from AccountNumber , GST , Email and refer the database ..
- For the CompanyName change the textChange from color
- Check all validation ...
- The Zipcode the backspace is not working...

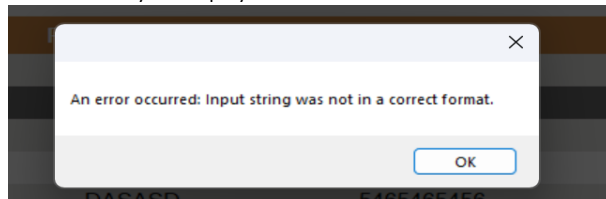

Enquiry :

- We don't want to show the Main page in above Enquiry Info
- while open the main page don't to show Edit Button .

Pop

(From all pop the heading will be in Pop heading will center)

1. Give mandatory for ContactNumber..
2. Give mandatory for Enquiry Status..

3. While click update button

4. From DB error I think refer it...
